The Journey brings back global community sounds

The first in a series of compilation albums from Scorpion Music Group (SMG), the global record label on the rise. **The JOURNEY** brings together an eclectic mix of Reggae, Afro-house and R&B. Paying homage to the origins of SMG, which began in Italy, Jamaica and the US.

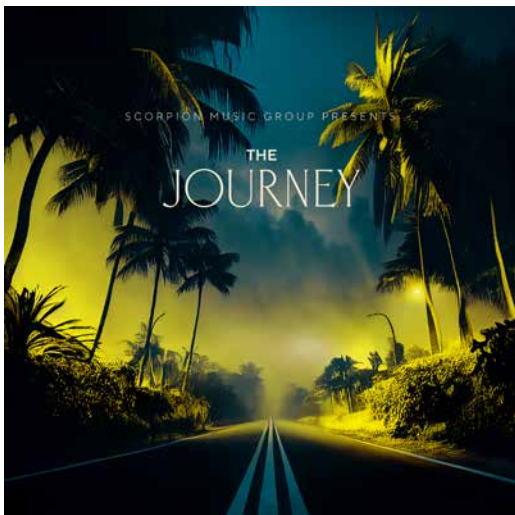

Executive produced by Alessandra Lo Savio, Scorpion Music Group CEO. Featuring up beat vocals from Ky-Mani Marley, Tony "Ruption" Williams, KC Clarke and Donel Mangena; along with a flamenco essence from Spanish maestro Diego Amador.

THE JOURNEY spotlights a much needed culture that is rooted in uplifting listeners. The mix of continental production delivers soulful beats blended with percussion overlays. Accompanied by some of the most defining voices of our generation, you're taken on a pilgrimage of self-discovery. This compilation speaks to the evolution of conscious living that has become more mainstream since the pandemic.

Scorpion Music Group are championing acoustic-heavy productions and thought-provoking lyricists in a new age of music. The team are committed to empowering ethnic communities around the world through their skills-building network. **THE JOURNEY** establishes Scorpion Music Group as a label to keep on your watchlist.
